Unpackaged Product Width (mm)	560
Unpackaged Product Height (mm)	685
Unpackaged Product Depth (mm)	112
Material	Steel
Etim Code	EC003624

Måttskiss

Flex I has individually pivoting arms that you can move as you wish, either to maximise your drying capability or to make Flex I as compact as possible. The tubes are straight, which makes it easy to hang up and take down your towels. You can order your Flex I in several configurations. Choose anything from two to six individually pivoting arms to 180°, meaning you can have it set both on the right and left.

The chrome-plated steel construction is very stable with metal brackets and the effect is 60W. The towel warmer can be mounted right or left-hand.

Flex I 6/550 is also available with Momento II™ timer function.

Cat 8340-5
